

graph_theory::test
::test_add_edge

```
graph LR; A["graph_theory::test<br/>::test_add_edge"] --> B["graph_theory::add_edge"]
```

A diagram showing a call from a test function to a graph theory function. On the left, a gray rectangular box contains the text "graph_theory::test" on the first line and "::test_add_edge" on the second line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "graph_theory::add_edge".

graph_theory::add_edge
