

convex_hull_trick::
test::test_cht

```
graph LR; A["convex_hull_trick::  
test::test_cht"] --> B["convex_hull_trick::dot"]
```

A diagram showing a transition from a test function to a dot product function. On the left, a gray rectangular box contains the text "convex_hull_trick::" on the first line and "test::test_cht" on the second line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "convex_hull_trick::dot" on a single line.

convex_hull_trick::dot
